Standardization of Health Care Quality Improvement

Ensuring the delivery of high-quality, patient-centered care requires understanding the needs of the populations served. The nation's health care data infrastructure does not provide the necessary level of detail to understand which groups are experiencing health care disparities or would benefit from targeted quality improvement efforts. These questions are recommended in order to standardize an approach to eliciting race, ethnicity, and language data. Please answer the below questions in order to assist in the gathering of this data.

ering of the	his data.	ge data. 1 ieas	e answer the below questions in order

FINANCIAL POLICY

MRN:	
1411714.	

As our office strives to hold down the cost of patient care, it is important for you to understand <u>your financial</u> <u>responsibility</u> for your medical care, specifically what your insurance policy covers and does not cover. **Our office performs "in office" procedures that <u>your insurance</u> company considers a surgical procedure. In some cases <u>they will apply</u> "outpatient benefits" in which case, you may have to meet a deductible or pay an additional coinsurance amount. <u>Please check your insurance benefits book for coverage information.</u> <u>If you have questions</u> regarding your insurance, please call the member services department listed on your insurance card.**

IN OFFICE PROCEDURES: Please be aware that <u>certain procedures performed in our office are not included in the standard office visit. These procedures will be billed separately and in addition to office visit charges. We have become aware that some insurance carriers are classifying these procedures as "Surgery" and applying the charges to a higher deductible amount. The result may be insurance payment for an office visit but not a procedure. In such cases, payment for the procedure will be due from the patient. Be assured that we are following accepted billing and coding guidelines and that all procedures are performed in the best interest of patient care.</u>

In-office procedures may include:

- Flexible laryngoscopy: This procedure involves passing a long thin flexible fiber optic scope through the nasal cavity and into the throat. The fiber optic scope enables the physician to visualize areas of the throat not readily seen using the laryngeal mirrors.
- **Nasal endoscopy**: This procedure uses the flexible or rigid scope attached to a light source to view areas of the nasal cavities that cannot be viewed by the physician using the standard nasal speculum and head mirror.
- Nasal endoscopy with debridement or biopsy: This is the same procedure as above with removal of crusting or tissue. This procedure is always performed on 3 different visits after any sinus surgery.
- Audiology Hearing Services
- Other procedures include: CT's, Balloon Sinuplasty, Base of Tongue Ablation and/or Ultrasounds and Biopsies

<u>MANAGED CARE PATIENTS:</u> It is your responsibility to obtain all necessary referrals and/or authorization from your Primary Care Physician. You will be responsible for all services if insurance denies due to no authorization.

All co-payments are due at the time of service

<u>COMMERCIAL INSURANCE PATIENTS:</u> We will file your medical services to your insurance company for you. As a courtesy, we will also file any secondary insurance policies that you may have. However, you are fully responsible for all charges incurred especially any charges denied as non-covered by your insurance company. Your insurance may have its own "Usual, Customary, and Reasonable (UCR)" fee schedule

SELF-PAY PATIENTS: You are responsible for payment of services on the day you are seen.

<u>WORKER'S COMPENSATION:</u> You are responsible for assisting us in obtaining authorization from your case manager or adjuster for all office visits. We will bill your employer or worker's compensation insurance plan. You are only responsible for payment if your claim is controverted.

<u>MEDICARE PATIENTS:</u> We are participating with Medicare. We will bill Medicare for you. Please note Federal Law requires us to collect your yearly deductible and co-insurance amounts. If you have a secondary insurance we will bill your secondary insurance after Medicare pays.

<u>STATE ASSISTED PATIENTS:</u> We participate with the Georgia State Medicaid program and will bill Medicaid. Medicaid benefits are valid month to month; therefore, it will be necessary to present your Medicaid certificate to us each month. We will collect all copayments at the time of service. Please note, if there is a lapse in your monthly Medicaid coverage (i.e. you are not eligible for Medicaid benefits) you will be considered a Self-Pay patient.

NO SHOW FEE: Your account will be charged \$50.00 for each visit that is considered a no show.

PAYMENT POLICY

All co-payments, coinsurance amounts, deductibles and/or other patient due balances must be paid in full at the time of your visit. Failure to make payment on your account <u>will result in your dismissal</u> from the practice and your account will be turned over to an outside collection agency for payment. Please note that we have a \$50.00 returned check fee on all checks returned to us from our bank for non-sufficient funds which will be charged to your patient account and responsible to pay. All patients who provide email account information will be automatically enrolled to receive email billing statements.
